We hope all our current students will join us this summer and next year to continue their dance training. Enclosed please find our 2023-2024 dance year schedule and registration information. We have highlighted the most appropriate class(es) for your student.

The Pointe Academy Dance Center has placed students in classes for over 30 years and we strive to give our students and parents our best recommendations. Please keep in mind that when a student enters a level in which he/she is not ready it can affect their self-esteem as well as class morale. When placing students we take into consideration age, ability, physical & mental ability, dedication, social development, technique, and technical milestones. The elements of sophistication of dance technique take years of training so it is not unusual for a student to stay in a level for several years. Our goal is to have the best interest of your student as he/she realizes the passion and discipline of dance.

Every class must have a minimum of 5 dancers enrolled by September 7, 2023, in order to run. If you plan on not returning, please let us now so we can plan our classes accordingly.

Packaged Class Pricing

We will once again be offering packaged class pricing for **all levels**. Packaged pricing provides each dancer the opportunity to take more classes in the most cost-effective manner. If you choose to not sign up for classes in a package, you will be charged *a la carte* for your student's classes based on the 2023-2024 tuition fees.

- You **do not** have to take a package to attend the studio. Students can choose to take 1 or more classes not specifically grouped together. However, these classes will **not** be discounted and the price per month will follow the 2023-2024 tuition fees.
- Classes in each package are **firmly set** with the intent of further student's technique and ability to progress along the sophisticated technical continuum of dance. In order for us to provide packages in the most beneficial manner to our students, a class unfortunately **can not be "swapped"** for another class that is not included in the package.
